Dear Mr. Allen,

Admiral Turner has asked me to thank you for your letter of September 20 and for your gracious comments on his appearance on "Good Morning America."

We are pleased that you are seeing the results of Admiral Turner's openness policy which he adopted for the Central Intelligence Agency. He hopes that this new policy will enable the American public to become better informed as to what the CIA -- and the Intelligence Community -- does and how we do it.

Again, thank you for your support and for your interest in the Agency.

Sincerely,

  
Assistant for Plans & Programs
